

INCOMM AND PS BRAND (SPS) GIFT CARD PROCESSING

FINESTRA POS V7

POSitec is pleased to provide an integrated solution for Incomm and Pharmasave Brand Gift Card processing. The steps to activate and use this product are outlined below. If you have any questions, please contact POSitec Customer Support at **1-800-667-4605**.

SYSTEM CONFIGURATIONS

STEP 1 – ACTIVATE A NEW CARD

Each Incomm and PS Brand Gift Card must be activated for use with the integrated card processing solution. If new cards are added after the initial configuration, they must be activated prior to their use at the cash register.

1. Create a Product File record [**Product Maintenance/Product File**] for each Gift Card, as usual.

The screenshot displays the Finestra POS V7 interface. At the top, there is a navigation bar with function keys F1 through F12 and the Finestra logo. Below this is the 'PRODUCT LOOKUP' section, which includes a search bar with the product description 'PHARMASAVE GIFT CARD - LEAF - NON-DENO' and a 'Sales Stats' button. The main area is titled 'Item Details' and contains a comprehensive form for product configuration. The form is divided into several sections: 'Product Information' (UPC, Description, Invoice Desc, Size/Unit, Fines), 'Pricing' (Retail, Act Margin, Last Cost, On Hand, Shelf Min/Max, Sale Retail), 'Inventory' (Sugg Retail, Sugg Margin, Avg Cost, On Order, Order Mult, Sug Ord, Inv Value), 'Marketing' (Status, Season, Tag, Date Created, Last Edit, Origin, Age Limit, Active Date), 'Attributes' (Discountable, NonReturnable, PL, Web, Open Item, Serialized, Reward Points, Redeemable, MSM), 'Giftcard Options' (Provider, Type, Denom Type, Denom Value), and 'ORDER SETTINGS' (a table with columns for Supplier, Order No, Min Qty, Box Qty, Cost, Box Cost, DAYS, SU, Primary). The 'ORDER SETTINGS' table contains one entry for 'INCOMM CAN' with a quantity of 10 and a cost of 0.4400. A 'Notes' section is visible on the right side of the form.

If the Gift Card is Open Value, set Cost and Retail to \$0 and select **Open It** check box under **Extra Attributes**

Card may also be entered by keying the UPC or Description

Complete the **Gift Card Options**:

Giftcard Options	
Giftcard Provider	SPS
Giftcard Type	Giftcard
Denom Type	Open
Denom Value	1.00 to 100.00

FIELD NAME	DESCRIPTION
Giftcard Provider	Select Incomm for non PS Brand Gift Cards Select SPS (Secure Payment Systems) for PS Brand Gift Cards
Giftcard Type	Select Giftcard for all Gift Cards (PS Brand and other) Select PinOnRcpt for Wireless cards, where a user PIN will be included on the Customer Receipt
Denom. Type	Select Fixed if the Gift Card has a fixed value Select Open if the Gift Card has a variable value
Denom. Value	For Open Denomination cards enter Min and Max value <i>Note: minimum must be >\$1.00</i>

STEP 2 – ACTIVATE THE PROGRAM

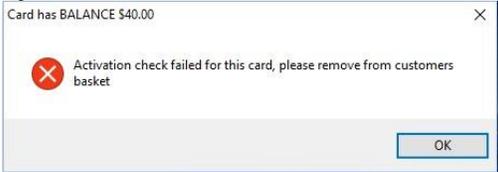

Once each of the cards has been configured, the remaining program configurations can be completed, and the integrated software can be activated. Please contact POSitec Customer Support when you are ready to proceed.

AT THE TILL

Once the cards and the software are activated, transaction processing will be completed in **[F1 – Invoicing]**. The table below outlines the available functions and how they work.

CARD TYPE	FUNCTION	PROCEDURE
PS Brand Gift Card <i>Note: these gift cards can be activated, and can also be used for purchase payment</i>	Balance check	<ul style="list-style-type: none"> Select [F1] – Invoicing, [F11] – Special Functions, [F10] – Giftcard Balance Scan Giftcard. System will contact SPS to retrieve Giftcard balance, then display on Cashier screen

<p>at Pharmasave stores.</p>		<p><i>Note: for older style mag stripe Gift Cards that do not include activation barcode, card balance will be verified during payment processing</i></p>
	<p>Use card for purchase payment – activation barcode on card</p>	<ul style="list-style-type: none"> • Scan items to be purchased, as normal • Press [F9] - Pay, then select Gift Card • In Card No field, scan activation barcode on Gift Card. Card balance will be displayed in Response field. • Choose [F12] – Accept to process transaction Purchase will be processed and value will be deducted from Gift Card. Transaction will complete, as normal. <p><i>Note: if there are insufficient funds on the Gift Card, remaining amount owing can be processed using a different payment type.</i></p>
	<p>Use card for purchase payment – mag stripe only (<i>does not include activation barcode on card</i>)</p>	<ul style="list-style-type: none"> • Scan items to be purchased, as normal • Press [F9] - Pay, then select Gift Card • In Card No field, manually enter 16 digit card number found on back, bottom right of gift card then press [Enter]. Card balance will be displayed in Response field. • Choose [F12] – Accept to process transaction Purchase will be processed and value will be deducted from Gift Card. Transaction will complete, as normal. <p><i>Note: if there are insufficient funds on the Gift Card, remaining amount owing can be processed using a different payment type.</i></p>
	<p>Void card purchase, return balance to card</p>	<p><i>Return to Gift Card is subject to time and value restrictions outlined by SPS.</i></p> <ul style="list-style-type: none"> • Process product return by Invoice, as usual. Select [F9] – Pay, then select [Gift Card] payment button • Scan activation barcode on Gift Card into Card No window, or manually enter 16 digit card number found on back, bottom right of gift card then press [Enter] <p>Void return will be processed and the value will be returned to the Gift Card. Transaction will complete, as normal.</p>

		<p><i>Note: if not doing a full transaction return, Gift Card return will not be processed. Please use alternate payment type.</i></p>
	Card activation	<p><i>Note: card activation will not complete until full payment processing is complete.</i></p> <ul style="list-style-type: none"> • At any point in transaction, scan activation barcode on Gift Card you wish to activate, then enter the value to activate • System will validate that the card has not been previously activated. • Complete payment processing, as normal When payment processing is complete, card activation will complete. Activation details will be included on Customer Receipt. <p><i>If previous activation is detected, the following message will display:</i></p> 
	Void a card activation, deactivate card	<p><i>Void card activation can only be done within same processing batch as original activation (usually same day) and is subject to restrictions outlined by SPS.</i></p> <ul style="list-style-type: none"> • Process Return with Invoice as usual • System will contact SPS to verify. When processing is complete transaction will complete.
<p>Incomm Gift Cards and PS Brand Phone Cards</p> <p><i>Note: these gift cards can be activated, but are not available to be used for purchase payment at Pharmasave stores.</i></p>	Card Activation – set denomination	<p><i>Note: card activation will not complete until full payment processing is complete.</i></p> <ul style="list-style-type: none"> • At any point in transaction, scan Gift Card • System will validate that the card has not been previously activated • Complete payment processing, as normal When payment processing is complete, card activation will complete. Activation details will be included on Customer Receipt.
	Card Activation – open denomination	<p><i>Note: card activation will not complete until full payment processing is complete.</i></p> <ul style="list-style-type: none"> • At any point in transaction, scan Gift Card, then enter the value to activate • System will validate that the card has not been previously activated • Complete payment processing, as normal When payment processing is complete, card activation

		will complete. Activation details will be included on Customer Receipt.
	PIN On Receipt Activation (wireless cards)	<p><i>Note: card activation will not complete until full payment processing is complete.</i></p> <ul style="list-style-type: none"> • At any point in the transaction, locate the brand and denomination for Wireless Product on the scan sheet, scan the UPC • Complete payment processing, as normal Gift Cards for wireless services require an additional PIN to activate the services purchased. The PIN is included on Customer Receipt, after payment processing completes.
	Deactivate Card	<p><i>Card deactivation is subject to restrictions outlined by Incomm.</i></p> <ul style="list-style-type: none"> • Process Return with Invoice as usual • System will contact Incomm to verify. When processing is complete transaction will complete.

GIFTCARD BILLING SUMMARY (RECONCILIATION REPORT)
