POS Made Easy with Exceptional Support

New Features

DONATION 'ROUND UP'

Use this new feature when you are collecting money for a charity or other donation. The system will prompt to round up a customer transaction to the next full dollar (or other amount), then record the Round Up value to a charity donation UPC that you assign. Use the Item Movement Report to determine the amount collected.

1. In Product File, create a UPC for the donation. Select the appropriate fineline for your store, and select 'Open Item'. Leave Cost and Retail 0.00

2. In Company Setup, select 'Use round up UPC for donation', then key the UPC into the entry box

- 3. At the cash register, when the cashier presses 'Pay' they will see the following prompt. The entry window will pre-populate a value rounded up to the next dollar value.
 - a. If the customer does not wish to round up, choose 'Cancel'
 - b. If the customer wishes to round up to the selected value, choose 'Accept'
 - c. If the customer wishes to round up to a different value, enter the new value then choose 'Accept'

					OK				

CUSTOMERS - BILLING INFO

In Customers, the following enhancements have been made to the Billing Info tab:

- 'Name' field has been replaced with first/last name. Customer Statements will now sort correctly by last name when Billing Info is used.
- Email field has been added. If this field is filled, it will take precedence over the primary Email and Email Statement info on the main form. *Note: the email field on Billing Info tab will allow the same email address to be used for*

more than one customer

OPEN ITEM COST

The cost for Open Item UPCs will now default to match the GM% for the fineline the item is in. To override with a different margin, enter the correct margin in the Margin entry window to the left of the Open Item option in Product File. For zero margin, enter 0.00 into the Margin entry window.

ADVANCED SEARCH

The following new fields have been added to the search options in Advanced Search:

- Web
- Discountable
- Redeem
- Rewards

DEPOSIT REPORT, NEW PRINT OPTIONS

The Deposit Report now opens in the report viewer, similar to other reports. This allows you to select a printer, choose number of copies, or save to a file.

INVENTORY EXPORT FILE, NEW FIELDS

The Inventory Export file has been adjusted to allow additional product attributes to be added to the file. This new functionality should only be used at the specific direction of the inventory company, otherwise the default option should be used.

Instructions on **How-to-Install FHC v2022.1.1** can be found at: www.positec.com/POSitec Portal/Release Versions
